

Organic Extra Virgin

Olive oil 2024

Produced from our traditional olive trees, and respecting regenerative and organic farming practices, Cortes de Cima Organic Olive Oil reflects a commitment to environmental preservation and consumer health.

Its characteristics include an intense green color with golden reflections, medium to intense fruity aromas with notes of fresh grass and green apple, complemented by a hint of almond.

The Cobrançosa and Picual varieties were hand-picked in October 2024, and their oil was cold-extracted and bottled without filtration.

Certified as organic, our olive oil contributes to the sustainability of the olive trees and Alentejo olive oil.

Ideal for finishing dishes or enjoying with homemade bread.

Bottled in December 2024

Available in tin can of 1l

280 tin can produced
